

Erratum:

**THE EXTERNAL QUALITY ASSURANCE SYSTEM OF THE WHO
GLOBAL FOODBORNE INFECTIONS NETWORK YEAR 2011**

(Figure 3, p. 20-22)

Unfortunately, we discovered an error in Figure 3 *Region-based categorization of EQAS participants' performance of Salmonella serotyping* in the previous version of the WHO EQAS report. The error consisted of Mexico being listed under South East Asia instead of under Latin America. The error was related to the table only and had no influence on the presentation of the results or the conclusions described in the report text.
